Adoption Details (NZRR member to complete)

I agree to the following adoption terms:

1. Provide the rats with adequate indoor housing, with clean cages.
2. Provide suitable food (**not** pet shop mixes), in the form of a lab block or homemade dry mix plus fresh food supplements, in sufficient quantity daily.
3. Provide the company of at least one other rat of the same sex for their entire life, unless their companion dies and they refuse to have another companion or they are too old for this to be feasible.
4. Provide vet care when needed.
5. Not breed from any adopted rats. If accidental breeding should occur, the rescue must be notified as soon as possible, and retains the right to reclaim both the rescue rat and the entire litter.
6. If circumstances change, and you are no longer able to care for the rats, the rescue is to be notified and allowed to take back any and all rats adopted by you at no cost. Rats are not permitted to be re-adopted without the rescues consent.

Rat(s) being adopted:	
Adoption fee:	
Special needs (if any):	

While we try to ensure rats are adopted out in good health, health issues can occur after moving to a new home that are beyond our control. If your newly adopted pets develop any issue requiring vet treatment within 3 weeks of adoption please contact the rescue, and we will arrange for vet treatment free of charge.
